

ECCODAL

Frost-resistant grass grind in HDPE

Based on recycled HDPE. The grass tile has internal expansion joints to absorb thermal and mechanical tensions.

INFO

- + Grass grid in HDPE: High compressive strength and high impact toughness
- + Quick installation: thanks to the handy dimensions of 80 x 80 cm
- + Perfectly accessible on foot or by car
- + European quality product
- + Expansion joints to cope with temperature differences

TECHNICAL SPECIFICATIONS

- + COMPOSITION - HDPE (high-density polyethylene)
- + HEIGHT 4 OF 5 CM
- + DIMENSIONS 80 X 80 CM (0,64M²)
- + COLOUR: GREEN OF BLACK

APPLICATIONS

- + Green car parks, driveways, carports
- + Walk and garden paths
- + Campsites
- + Fire roads
- + Reinforcements

ECCOdal HD Flex

Solid and flexible grass grid

made from recycled plastic

INFO

- + Ecological: 100% recycled en 100% recyclable
- + Unique and innovative shape for an aesthetic and uniform result after installation
- + Cell structure can perfectly absorb all thermal expansions
- + Thicker cell walls make the grass grids more resistant to torsion
- + More than 6 strong connections per meter between the grids
- + large contact area at the bottom ensures better load distribution
- + Can also be placed in half-brick bond for extra strength of the entire structure

TECHNICAL SPECIFICATIONS

- + DIMENSIONS 80 x 60 cm
- + HEIGHT 4 cm
- + COMPOSITION Polyoléfines (recycled plastic)
- + COLOUR black

APPLICATIONS

- + Driveways with grass and grass parkings
- + Fire evacuation roads
- + Walkways and garden paths
- + Campsites, paddocks, horse trails, ...
